

IMRO Recycling Plants

Slag Recycling

Recycle Craft® by **IMRO**

From Start to Finish - IMRO Technology - the Interface Specialist

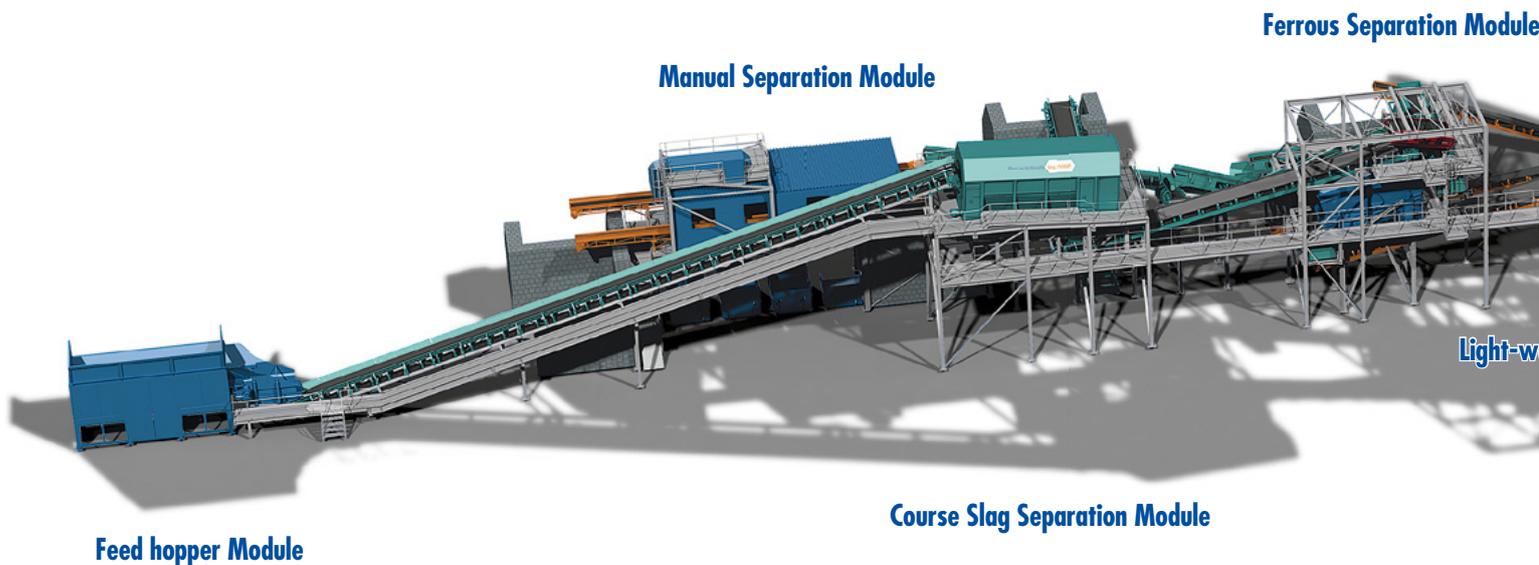

Partner with us to set up your plants and your company will experience even more success. We develop efficient methods for top-quality slag recycling. This means IMRO achieves the highest production depth in the construction of its slag recycling plants. Producing single machines for the recycling industry, we are also a one-stop provider of entire recycling plants. Satisfied customers profit from our expertise in designing critical interfaces in slag treatment plants.

Two things speak in favour of your plant's profitability:

- > The highest possible yield of metals
- > Maximum up-time of plant technology

To be accomplished with:

- > IMRO Ferrous Separator and Non-ferrous Separator
- > IMRO's vast experience and maximum production depth in slag recycling plants

Achieving Perfection in Slag Recycling

IMRO DiscoveryLine - Sensor-based Separation - for Stainless Steel and All-Metal Separation in Slag Recycling
 IMRO Non-ferrous Separators and IMRO conveyor belts built specifically for slag applications

The Heart of the Non-ferrous Separation - IMRO RCSX

We increase your recycling output

For example, non-ferrous separation of slag into different grain sizes.

0 - 2 mm

RCSX E

4000 rpm

2 - 5 mm 5 - 10 mm 10 - 30 mm

RCSX D
RCSX D NEO

3500 rpm
3800 rpm

30 - 60 mm

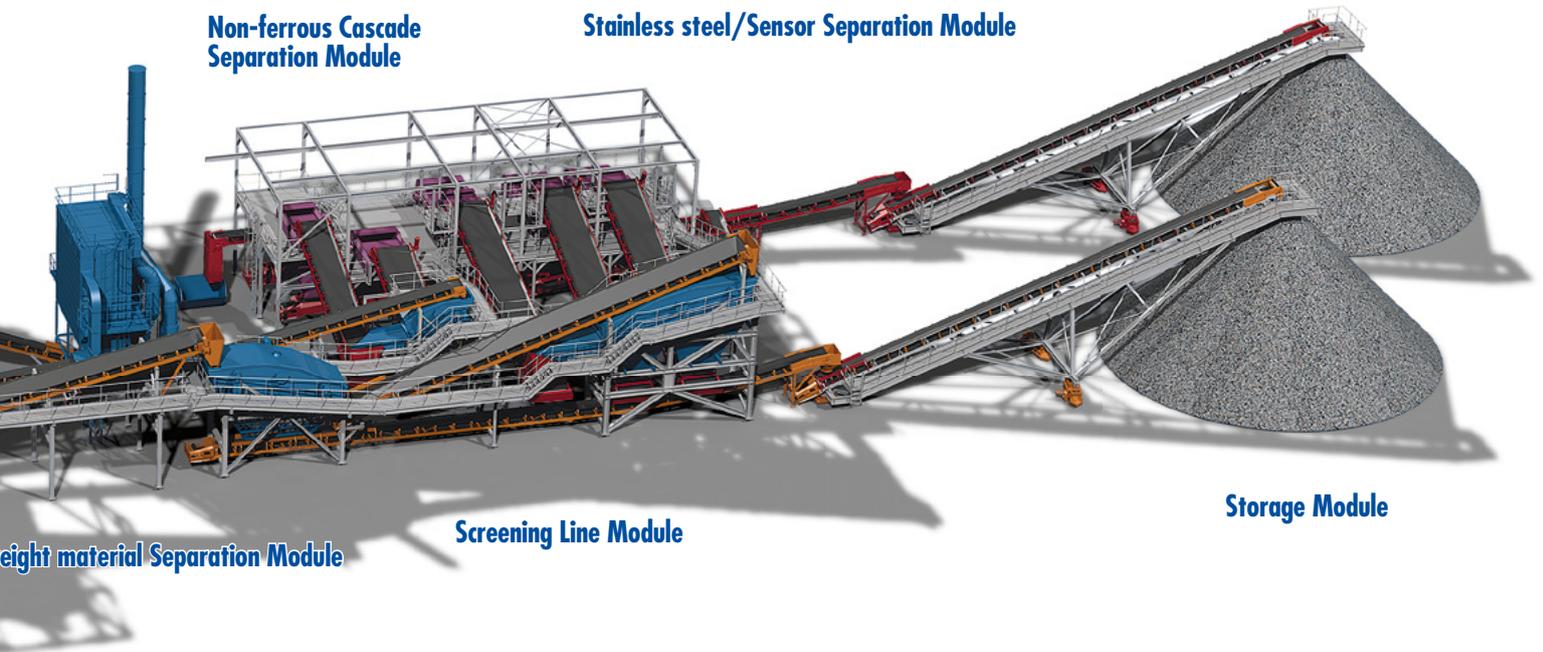

RCSX C

2600 - 3000 rpm

Non-ferrous Cascade Separation Module

Stainless steel/Sensor Separation Module

Light material Separation Module

Screening Line Module

Storage Module

MASCHINENBAU GMBH

IMRO TEST CENTRE

Over 25 Years' Experience in Recycling

Technology always fulfils demands. Would you like to know which valuable materials and impurities are contained in your material flow? Then bring it along and have it analysed in our IMRO Test Centre. Our 25 years' expertise and experience in the recycling industry guarantees we will optimise your recycling processes.

Equipped with cutting-edge technology, IMRO Test Centre staff makes sure you are taking the first step in achieving maximum economy and value recovery. Let us demonstrate the performance and the coordinated interaction between all of the IMRO separator machinery.

Your advantage: Fast results and efficient plants and equipment, plus added value and immediate profitability in all recycling processes.

IMRO increases your recycling output - IMRO the Interface Specialist
